Big Data	Azure Data Factory, HDFS, PySpark, YARN, Apache NiFi
Other	MSSQL, git, REST, Cloudera DSW, SQLite, Go

Experience

Equinix

Warsaw

Python Developer with DevOps

Nov. 2020 - currently

- Using **Java** and **Spring Boot** for backend and **Python** for CLI, I have automated repetitive tasks done by developers such as **creation of projects and Jenkins pipelines from templates**.
- Extended our **Jenkins Shared Library**.
- Deployment and maintenance of **self-hosted GitHub Actions** runners on **AWS** and **onpremise Kubernetes** clusters, using **Argo CD**, **Helm** and **Terraform**. Additionally created **Alertmanagers** alerts and **Grafana** dashboards.
- Helped with day-to-day development problems including **GitHub Actions workflows** writing and debugging, **changes to our infrastructure**, debugging **networking problems**, etc.

Lingaro

Warsaw

Backend Developer/Data Engineer

March. 2019 - July 2020

- Used **Java** to create **Smart City** application that collected data from various devices, processed it and stored in a **Azure SQL Database** and **Azure Blob Storage**.
- Created **REST API** in **Java** used for accessing the data.
- Managed **Azure** resources used in the project.
- Used **Python** to create connectors to **Google AdWords API** and **Facebook Marketing API** in order to collect data about ad campaigns.
- Used Python and **PySpark** to create **ETL pipeline** that processed data used in **machine learning training**.
- Helped the Data Science team with matters related to **Hadoop environment**.
- Created **Flask** application handling access to deployed machine learning models and processing of the collected data.
- Built **Azure Data Factory** pipelines handling ETL processes.
- Helped with various matters related to the creation and management of **Azure** resources.

Freelance

Warsaw

Backend developer and Product Owner

Oct. 2018 - Jan. 2019

- **Negotiated terms of a contract** for the creation of an application responsible for collecting trucks' GPS information and sending it to external service.
- Defined **use cases** and helped **design the interface** of the application.
- Used **Go** to create **REST client** responsible for communication with external service.

TUiR Warta S.A.

Warsaw

Java Developer

June 2018 - Sep. 2018

- Used **Java** to create application that processed faulty insurance transactions and **automatically created issues in Jira**, which unburdened our testers team.
- Created various internal tools such as a **SOAP client** responsible for changing test data in a database or Excel macros that were used to process spreadsheets.

I HEREBY GIVE CONSENT FOR MY PERSONAL DATA INCLUDED IN MY APPLICATION TO BE PROCESSED FOR THE PURPOSES OF THE RECRUITMENT PROCESS UNDER THE PERSONAL DATA PROTECTION ACT AS OF 29 AUGUST 1997, CONSOLIDATED TEXT: JOURNAL OF LAWS 2016, ITEM 922 AS AMENDED.
